Target Audience
Nurses, nurse practitioners, nurse educators, clinical nurse specialists (pediatric, critical care, Emergency Department, surgery/post-anesthesia, sedation, transport) and other acute care givers who work with children.

Description
In this one-day course, expert speakers will review and update participants on topics relevant to those caring for children in the acute care setting.

Speakers
- Dr. Jocelyn Harmon, Assistant Professor, Clinical Pediatrics, Division of General and Hospital Pediatrics
- Dr. Harley Morgan, Assistant Professor, Clinical Pediatrics, Division of Pediatric Neurology
- Dr. Craig Stuck, Associate Professor, Clinical Neuropsychiatry and Behavioral Science
- Dr. Christopher Hydorn, Pediatric Orthopedic Surgeon
- Dr. Juan Camps, Pediatric Surgeon, Director of Palmetto Health Pediatric Trauma Program
- Dr. Susan Luberoff, Associate Professor, Pediatrics–Division of Community Pediatrics
- Dr. Carla Roberts, Assistant Professor, Clinical Pediatrics, Pediatric Hematology/Oncology

Credit
This activity has been submitted to the South Carolina Nurses Association for approval to award contact hours.

Palmetto Health Richland is an approved provider of continuing nursing education by the South Carolina Nurses Association, an accredited approver by the American Nurses Credentialing Center’s Commission on Accreditation.

Please call Susan Skelly at 803-434-2607 for more information about contact hours.

Participants must attend 90 percent of the program for credit. Partial credit will not be given.

There will be credit for three trauma hours for the lectures by Drs. Camps, Luberoff and Hydorn for those who work in areas where these are required.

There is no conflict of interest for planners or presenters.

Fee
$20 before Friday, Jan. 6, 2017. There will be a late registration fee of $30 until Wednesday, Jan. 18, 2017, when registration closes. Cancellation prior to the Jan. 18 deadline will be honored, minus a $5 administration fee. No refunds after Jan. 18, but substitutions are allowed.
Course Objectives

- Participants will verbalize the diagnosis and care of the pediatric lupus patient.
- Participants will be able to define SMA and state current treatment options.
- Participants will be able to recognize signs of suicidal ideation in the pediatric patient and provide appropriate support.
- Participants will be able to identify when a pediatric patient may have an orthopedic injury and discuss the acute management of orthopedic injuries to improve outcomes via nursing.
- Participants will be able to describe the use of tubes, drains and catheters in pediatric trauma.
- Participants will gain experience in recognition, early management, documentation and reporting of injuries that may represent abuse.
- Participants will be able to recognize that children with sickle cell anemia should be screened for risk of stroke with transcranial doppler ultrasound yearly between 2 and 16 years of age.
